(As described in "Early Writings" and "Great Controversy") by E. L. Pingetot

General note – Each number above refers to a corresponding number below; that is, Note 1 refers to Event 1 above, etc . . .

The spaces between divisions of the chart do not indicate any definite period of time, with the exception of "the 1000 years". Events 1 to 4 covers many decades. Events listed between 4 and 10 occur possibly within the limits of a year, and Events 6 to 10 perhaps within the compass of a few days.

References – References in "The Great Controversy" have the right paging in all editions except the 1927 subscription edition. The references cited do not begin to include all that might be listed. The student will add to this list from his general reading in the Spirit of Prophecy. Beginning with chapter 38 of "The Great Controversy", Mrs. White has given us a detailed chronological arrangement of what she was shown over a period of years, as first described briefly in "Early Writings". A clear understanding of the order of events will enable the student rightly to apply the references som først beskrives kort i "Budskaber til menigheden." En klar forståelse af begivenhedernes orden vil sætte den studerende i stand til at bruge henvisningerne til disse begivenheder i alle andre skrifter af Profetiens Ånd.
